ADITYA PUJARI

B.Tech in Computer Engineering | Aspiring Software Development Engineer

@ adityapujari542@gmail.com 🔗 linkedin.com/in/aditya-pujari-6a0025261 📍 Pune, Maharashtra | +91 9172375594

SUMMARY

Computer engineering student with practical knowledge of Python, C++, SQL, and JavaScript. Currently building skills in designing and implementing software solutions with growing knowledge in web development and cloud technologies. Solid knowledge of data structures, algorithms, and problem-solving with a desire to apply my technical knowledge to impact projects on software development while continuously developing my expertise.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

G H Raisoni College of Engineering and Management, Pune

📅 2022 - 2026   📍 Pune

VOLUNTEERING

Smart India Hackathon 2023

Eureka Innovation & Entrepreneurship Club, GHRCEM   📅 2023

Drug Recommendation Platform *(Team AyurVaidya Healers)*
- Developed prototype website that suggests drugs and formulations for diseases or pharmacological properties based on Ayurvedic classical texts and repositories.
- Contributed to coding, brainstorming sessions, and problem-solving activities, enhancing my teamwork and project management skills.

Smart India Hackathon 2024

Eureka Innovation & Entrepreneurship Club, GHRCEM   📅 2024

Certificate Issuance Optimization Platform (Team Paperless Panchayat)
- Designed and developed **EasyVerify**, a web-based platform for efficient certificate issuance using real-time monitoring and automated load balancing.
- Integrated MySQL for centralized data storage and visualization tools like Power BI to display real-time application statistics and workload distribution.

PASSIONS

Technology
Enthusiastic about exploring new technologies, frameworks, and programming languages to stay ahead in the fast-evolving tech landscape.

Projects and Problem Solving
Keen on working on projects and solving problems in technology and computer science.

SKILLS

Python C C++ MySQL MongoDB GCP Problem Solving Data Structures Algorithms React Node.js HTML CSS Javascript Git OOP

CERTIFICATION

Google Cloud Engineer Certification
Certified as a Cloud Engineer, specializing in cloud infrastructure management and deployment on Google Cloud.

HackerRank Python Certificate
Completed coding challenges in Python, applying problem-solving skills to real-world scenarios and algorithms.

Machine Learning On Google Cloud
Gained hands-on experience in building and deploying machine learning models using Google Cloud's services and tools.

PROJECTS

Problem Solving Platform

📅 2024   📍 Pune

Interactive exam preparation platform.
- Developed **www.problemsolving.live**, a website designed to assist students in preparing for competitive exams like GATE, coding interviews, and general aptitude tests.
- Categorized content into sections such as General Aptitude, Coding (C, C++, Python, Java), GK, Current Affairs, and Notes, ensuring an organized and intuitive user experience.
